

# LKSCoin

Sale Knowledge  
sharing social token

Contact Information  
[info@lksfoundation.org](mailto:info@lksfoundation.org)

## KEY Takeaways

- 1** The main goal of LKSCoin is to become a mean of payment for digital content by protecting their copyright.
- 2** Target a market that actually matters NOW (\$ 153.2b), with a product that is already active and have been tested for one year.
- 3** Key partnerships already confirmed and active. Cam.TV, a social network with more than 300,000 users who use LKSCoin for the exchange of "likes" and as a mean of payment on the platform. On average, 20,000 LKSCoin transactions are made every day.
- 4** Deliver unrivaled power to content producers and social networks, enabling them to explore and use native blockchain concepts like NFTs to protect copyright without having to write their own smart contracts or create their own blockchain tech.
- 5** Thanks to a proprietary chain and a pegging system, LKSCoin presents a unique technical design that allows at any time the transfer of LKSCoin from LKS Chain to the Ethereum Chain without changing the COIN supply.
- 6** LKSCoin is currently powered by 800+ active nodes which guarantee its security and decentralization.
